Certifications & Training

- Microsoft Azure Fundamentals AZ-900 [[Verify Credential](#)]
- English B1 Certification

LANGUAGES

English: Intermediate – Able to communicate effectively in professional and technical environments, including reading technical documentation and collaborating in English.

WORK EXPERIENCE

Viet Japan Partner Company - Web Developer Intern

May 2024 – June 2024 | Ho Chi Minh City

- Developed web interfaces and integrated APIs.
- Collaborated with team members on feature development and testing.
- Gained experience in system design and backend integration.

Co-founder · UX/UI Designer & Developer

May 2025 – March 2026 | Ho Chi Minh City

- Main UX/UI designer — designed the full product experience in Figma, from user flows to high-fidelity screens and a reusable component system.
- Built the mobile app with React Native.
- Built the website with React.
- Worked end to end across design and development, turning my own designs into shipped features.

PROJECTS

Mini Game – Fruit Catcher | Personal Project

Mar-2026

Tech: Cocos Creator, Javascript, Typescript

Demo: <https://fruit-catcher-cc2d.vercel.app/>

Git: [hangnguyen118/fruit-catcher-cc2d](https://github.com/hangnguyen118/fruit-catcher-cc2d)

Role: Game Developer

- Developed a 2D mini game with player movement, collision detection, and scoring system.
- Implemented keyboard controls (A/D), smooth character movement, and real-time object spawning.
- Designed game loop, state management (menu, playing, game over), and score tracking using local storage.
- Integrated sound effects and UI feedback to enhance player experience.
- Focused on smooth gameplay and responsive interactions.

Flip Card Game | Personal Project

Feb 2026 – Mar 2026

Tech: React, Typescript, JavaScript, HTML, CSS

Demo: <https://flip-card-game-seven.vercel.app/>

Git: [hangnguyen118/flip-card-game](https://github.com/hangnguyen118/flip-card-game)

Role: Game Developer

- Developed a memory-style flip card game where players match pairs of cards through interactive gameplay.
- Implemented card flipping logic, matching algorithm, and game state management.
- Designed responsive UI with smooth animations for better user experience.
- Added timer and score tracking to enhance gameplay and replayability.

Esme Chatbot | Personal Project

Feb 2026 – Mar 2026

Tech: React, Node.js, OpenAI API, ElevenLabs

Demo: hangnguyen118/Esme-Chatbot

Git: [hangnguyen118/Esme-Chatbot](https://github.com/hangnguyen118/Esme-Chatbot)

Role: Full-stack Developer

- Developed an AI-powered chatbot that supports voice-based interaction and real-time responses.
- Integrated OpenAI API to process user queries and generate intelligent responses.
- Implemented text-to-speech using ElevenLabs to deliver natural voice output.
- Designed an interactive UI allowing users to start conversations and receive audio feedback.

- Handled API communication and asynchronous data flow between frontend and backend.

Portfolio Website | Personal Project

Feb 2025 – Apr 2025

Tech: Angular, Angular Material, .Net, SQL, Azure, Github, Vercel.

Demo: <https://profile-me-website.vercel.app/home>

Git: <https://github.com/hangnguyen118/profile-me>

Role: Full-stack Developer

- Built the UI with Angular + Angular Material, following responsive and component-based architecture.
- Developed backend APIs using .NET and integrated Azure SQL.
- Deployed the application using Vercel and Azure services.
